## PESSIMISTIC FEELING

PREVAILS AMONG THOSE WHO ARE ASSEMBLED TO WATCH PEACE CONFERENCE.

## THE DEMANDS OF THE JAPS

CONVICTION CROWS THAT THEY WILL NOT BE AS MODERATE AS FIRST SUPPOSED.

Portsmouth, N. H., Aug. 10.—With the probability that Baron Komura will during the day reveal to the Russian plenipotentiaries the terms upon which Japan is willing to conclude peace, opinion as to the outcome among those who are congregated here to watch the proceedings has become decidedly pessimistic. This is due to the growing conviction that Japan's conditions will not prove as moderate as were at one time anticipated, and, especially in the matter of indemnity, may preclude the possibility of their acceptance by the Russian envoys as a basis of negotiation. The firm attitude of M. Witte in private conversation against the payment of an indemnity and the insistent reports emanating from Japanese quarters that a stiff war contribution approximating the cost of the war, variously stated at from \$600,000,000 to \$800,000,000, constitutes one of Japan's demands, indicates a wide, if not an irreconcilable, difference between Japan's irreducible minimum and what Russia is prepared to accept. Upon the question of the payment of a large indemnity the instructions of the Russian plenipotentiaries are believed to admit of no concessions, although it is possible a certain compensation in kind might be arranged. For instance, it is suggested that for the relinquishment of the island of Sakhalin, now potentially in Japan's hands, the possession of which by Japan would give her command of the whole Siberian littoral, Russia could with propriety pay a large sum.

May Be Premature.  
Gloomy forebodings, however, may be premature at this juncture, as everything indicates the plenipotentiaries upon both sides are sincerely desirous of concluding a treaty of peace.

The first meeting of the plenipotentiaries Wednesday was of an entirely informal character, so informal, in fact, that Baron Komura did not bring his letter of credence to the Portsmouth navyyard, whereas M. Witte was armed with the original document in Russian setting forth the powers conferred upon him, and also with a translation of the document. The latter he read, Baron Komura was embarrassed and offered to send back to the hotel for his communication, but M. Witte expressed his faith that the credentials were full and ample and it was arranged that official exchange of credentials should be made Thursday.

Later in the afternoon, however, copies of the credentials were informally exchanged in order that they might be examined before the meeting Thursday. It is known that the credentials differ slightly. In exactly what respect could not be ascertained, but both the Japanese and Russian emissaries say that the difference is not essential and constitutes no obstacle to the official opening of the negotiations. Indeed, the president was officially informed Wednesday night that the credentials were full, ample and satisfactory to both sides.

## Two Sessions Daily.

It was decided Wednesday to hold two sessions, one in the morning, beginning at 9:30, and one in the afternoon, beginning at 3. To avoid delay and give the plenipotentiaries and delegates time for consultation between sessions, it has been arranged that luncheon will be served at the navyyard and the envoys upon leaving their quarters in the morning will not return until the afternoon session adjourns. Three secretaries for each side will be in attendance to draw up the protocols of the meeting, which will be written in both English and French. The French text, however, in case of dispute, will be accepted in evidence (laire foi).

The official versions of Wednesday's meeting given out by each side described it as "satisfactory," and other accounts indicate that while everything passed off amicably, considerable reserve was displayed upon both sides. Baron Komura, whom M. Witte had met in St. Petersburg during the former's service as Japanese minister there, was pleasantly greeted by the chief Russian envoy in French, but the baron was obliged to shake his head and turn to his secretary, Mr. Honda, who explained that Baron Komura had forgotten the little French he knew while in St. Petersburg. While the Russian plenipotentiaries

expect the Japanese to present the Japanese terms immediately upon the official exchange of credentials Thursday, they admit they are in the dark. Baron Komura and his colleagues decline to give any intimation of their course of procedure.

There was some disposition Wednesday to attribute Baron Komura's forgetfulness in not bringing his credentials to the meeting to a desire to spar for time and for that reason some doubt was expressed whether the Japanese would show their hand Thursday, but the Russian envoys do not question Baron Komura's good faith and frankly say it was due to a misunderstanding.

Wednesday evening the amenities were observed by a general exchange of cards.

The Japanese and the Russian newspaper correspondents have broken the ice and have begun to fraternize. It is perhaps significant that the correspondents on both sides are tending to their respective homes discharges of anything but an optimistic character.

In the opinion of the Russians the emperor's manifesto promulgating the national assembly project will materially strengthen the position of the Russian envoys by relieving the internal situation.

## SEVERAL SMALL RIOTS.

Call for Drastic Action on the Part of New York Police.

New York, Aug. 10.—Frequent outbreaks of rioting, calling for drastic action by the police, marked the course of the strike of the Hebrew bakers on the East Side Wednesday. In an attack on a bakery in Allen street fifty rioters broke into the place, completely wrecked it, and upset barrels of flour and dough in the street. The police reserves had to be called out before the rioters could be dispersed.

A committee of 100 sent from strike headquarters at night to a bakery in Orchard street to induce nonunion workmen to quit attacked the shop, hearing of which hundreds of strikers rushed from the meeting to the scene of conflict. One policeman who attempted to defend the nonunion men was severely beaten, but held his ground until rescued. The patrol wagon, bringing a squad of reserves, was furiously assailed by the mob, who stopped the horses and even dragged some of the men from their seats. The rest quickly alighted and charged the mob through a rain of bottles and bricks that poured from roofs and windows. After ten minutes hard fighting the mob was dispersed and two men, both severely injured, were arrested. The shop in which the fighting began was completely wrecked.

At many points on the East Side wagons carrying bread were attacked, the drivers beaten and the contents thrown into the street. Many women participated in these attacks. Throughout the whole lower East Side a bread famine was general among the Hebrews, for the people not only refused to eat any but kosher bread, but appeared to be bent on destroying all the bread of that character which they could lay their hands on.

## DENIED BY WU TING FANG.

Former Minister at Washington Not Directing Boycott.

Peking, Aug. 10.—Wu Ting Fang, formerly Chinese minister at Washington and now vice president of the board of foreign affairs, in an interview said that the existing regulations for the exclusion of Chinese from the United States were unsatisfactory from the Chinese standpoint and hence it was desired that they should be modified by the new convention. The Chinese, he said, agreed to the exclusion of coolies, and this point presented no difficulty, but the existing regulations pressed with severity on other classes. He desired a better definition of the term "laborer."

Mr. Wu expressed himself as greatly regretting the Chinese boycott of American goods and steamship and insurance companies, as it might estrange the good will of Americans, which he highly prized. Mr. Wu confessed that he was surprised at the extent of the movement and the depth of feeling manifested not only by the mercantile classes, but by the students and even the women.

Mr. Wu's attention was called to the fact that he was credited with directing the boycott and he indignantly repudiated the suggestion.

## The Cat.

A little English girl wrote the following essay on a cat: "The cat is a square quadruped, and, as is customary with square quadrupeds, has its legs at the four corners. If you want to please this animal you must stroke it on the back. It is very much pleased it sets up its tail quite stiff, like a ruler, so that your hand cannot get any farther. The cat is said to have nine lives, but in this country it seldom needs them all because of Christianity."

## VICTIM OF THE FEVER

ARCHBISHOP CHAPPELLE OF NEW ORLEANS SUCCEDES TO THE DREAD DISEASE.

## DEPRESSION IN COMMUNITY

SPREAD OF THE PLAGUE MAKES PEOPLE OF NEW ORLEANS FEEL DESPONDENT.

New Orleans, Aug. 10.—Public interest in the general yellow fever situation suffered a temporary eclipse Wednesday in the unexpected announcement of the death of Archbishop Chappelle, the most distinguished victim of the disease. Although the venerable prelate was a subject of scientific treatment and had the most assiduous attention, his physique always counted heavily against him in the opinion of both the laity and the physicians, while his fatigued condition on his return from a particularly irksome trip through the country also was against him. His death, therefore, while generally deplored, is not considered a negative of the opinion of the medical fraternity that with good care and proper treatment, the mortality is unlikely to be heavy during the present visitation.

Among the scientific men there is little doubt that the archbishop fell a victim to a mosquito during a brief visit he paid to the old archbishopric on Chartres street or from an insect which found its way into his residence in Esplanade avenue, which is not far from the territory within which there has been infection.

Monsignore Chappelle was taken ill on Friday. He had returned to the city three days before, having just completed a tour of Louisiana and announced on his arrival here his intention of co-operating in the efforts then in full swing to stamp out the fever.

## Stricken With Yellow Fever.

The archbishop, however, left his house only on one occasion before he was taken sick. That was to take a drive with his niece. On Friday he complained of the symptoms which are the forerunner of yellow fever. Dr. Larue, the archbishop's physician, was immediately called. On Friday he diagnosed the case as a genuine attack of yellow fever. The disease made steady progress and the archbishop passed away Wednesday.

Archbishop Placide Louis Chappelle was a native of Mende, France, where he was born Aug. 28, 1845. He came to the United States in 1859 and was graduated from St. Mary's college. He was ordained a priest in 1865. For five years following he served as a missionary and from 1870 to 1891 he held pastorates in Baltimore and Washington. In 1891 he was made bishop coadjutor of Santa Fe, and became archbishop of that

diocese in 1894. Three years later, on the death of Archbishop Janssens, he was named as archbishop of New Orleans. After the Spanish-American war he was appointed by the pope as apostolic delegate to Cuba, Porto Rico and the Philippines. He went to the Philippines and spent much time there in connection with the settlement of conditions growing out of the change of sovereignty in the islands. Three years ago Archbishop Chappelle was relieved of the responsibility of his mission to the Philippines, but continued his jurisdiction over Cuba and Porto Rico.

## PEOPLE FEEL DESPONDENT.

Spread of Yellow Fever Depressing to Those of New Orleans.

New Orleans, Aug. 10.—Wednesday was the first day since the fever appeared here in which there was any apparent depression in the community and there are two reasons for it. One was the death of Archbishop Chappelle and the other was the general closing of stores in accordance with the mayor's proclamation urging everybody in the city to devote the day to a general home-cleaning-up. While the death of the distinguished prelate is deplored because of the loss which the community sustains, it is also regretted because of the effect it will have upon the outside world. It is feared that it will cause the belief to spread that conditions here are equally much worse than they are.

The records are now being issued under the auspices of the marine hospital service, which vouches for their correctness.

Following is the yellow fever report of board of health to 6 p. m. Wednesday:

New cases, 63; total to date, 679; deaths, 7; total to date, 119; new sub-foet, 12; total to date, 130; cases under treatment, 265.

The overwhelming preponderance of cases continue below Canal street and the disease has nowhere got a firm hold above.

Wednesday's record of cases was again large and there was an increase in the number of deaths. The new cases are swelling largely as a result of the vim and energy which federal control of the situation has inspired and from a gradual overcoming of the disinclination of some of the doctors to make known their cases.

Quite a number of the new cases are in close proximity to existing subject, indicating secondary infection. In the death list, all but one of the names indicate foreign origin, showing no variation from the preceding records.

Among the cases in the last official report is one within half a square of Newspaper row. It is located in a lodging house in Commercial alley. This is the second case that has been reported from the same quarter.

Actual control of the sanitary passed Wednesday to the marine hospital service, Dr. Gessner being placed in immediate charge.

Chairman Janvier has received a telegram from Governor Blanchard stating that more than a majority of the members of the legislature had replied favorably to the appropriation of the \$100,000 to the fever fund, so the loan will be effected with the

financial agents Thursday. The city contribution of \$50,000 will be available in a day or two. In the meantime the citizens are coming forward and the fund will be completed in a short time.

News outside of the city shows that there are only two new cases at Patterson and one case in a new locality in St. Charles parish.

## YELLOW FEVER IN THE SOUTH.

Disease Exists in Four States and in Mexico.

Austin, Tex., Aug. 10.—State Health Officer Tabor Wednesday in a report to Governor Lanham concerning the yellow fever situation in the South says:

"Yellow fever exists now in Louisiana, Mississippi, Alabama, Florida and the Republic of Mexico. Texas is sandwiched between the infected districts with very little hope of escaping invasion by the scourge with the long summer before us. We are guarded as closely as possible, but it is very hard to maintain a successful quarantine."

## ON LAST TRIP OF THE SUMMER.

President Roosevelt Will Make Several Speeches.

Oyster Bay, Aug. 10.—President Roosevelt will leave Oyster Bay during the morning on what probably will be the last trip he will make during his summer sojourn at Sagamore Hill. Late in the afternoon he will deliver an address to the United Mine Workers and members of the Catholic Total Abstinence union at Wilkes-barre, Pa., and at 10:30 a. m. on Friday he will speak before the Chautauqua assembly at Chautauqua, N. Y.

On the trip the president will be accompanied by his son, Kermit, his nephew, Hall Roosevelt, Philip Roosevelt, a son of W. Emlen Roosevelt, Acting Secretary Benjamin F. Barnes, Jacob A. Riis, Surgeon Charles F. Stokes of the navy, M. C. Latta, his personal stenographer, H. A. Strothmeyer, photographer, representatives of the press associations, secret service officials and messengers.

The party will go by special train to Long Island City, thence by boat to Jersey City, and leave Jersey City on a special Lehigh Valley train at 10 a. m. Brief stops will be made at Phillipsburg, N. Y., and Easton, Bethlehem and Allentown, Pa., the president speaking at each place from the rear platform of his car. Wilkes-barre will be reached at 3 p. m. The party will be conveyed to a stand on the river commons, where the president will deliver his address.

John Mitchell, president of the United Mine Workers of America, will preside over the meeting, being introduced by Mayor Kirkendall of Wilkes-barre. Cardinal Gibbons will be present and very likely will make a short address. At the conclusion of the meeting the president will be taken for a drive about the city.

Leaving Wilkes-barre at 7 p. m. and making brief stops at Sayre, Pa., and East Waverly, N. Y., the president will arrive at Chautauqua at 8:45 a. m., Friday. His address to the Chautauqua assembly will be delivered at 10 a. m. in the amphitheater. He will leave promptly at noon and is scheduled to arrive at 9:40 a. m. Saturday in Oyster Bay.

The census just taken shows that Itasca county is the banner county in ratio of increase in the state, the federal census of 1900 giving it 4,573, the number at the present time being 11,429, an increase of 150 per cent.

The county of St. Louis is after the professional tax dodger and at the close of the labors of the board of equalization in Duluth the county auditor was instructed to make a careful search for stocks, bonds and credits not assessed and place them on the tax rolls.

The express companies are prothing by the strike to the detriment of the freight business on the roads affected. Much of the perishable freight is sent that way in order to avoid any possibility of delay in transit. The wholesale fruit houses in Duluth claim that they are losing considerable money owing to the trouble and the business they miss on account of this is irretrievably lost.

The Grand Forks Herald says there is practically an ice famine in North Dakota. Dealers who were waiting last season for the ice crop to reach the required thickness were caught by a February thaw and the quality of ice after that was poor and has melted in the ice houses. Many points in that state are shipping in ice from other places where the supply put up exceeds the demand.

The product of the state prison binder twine plant this season has far exceeded that of any previous year and has gone beyond the amount estimated after the additional machinery was put in last spring, says the Stillwater Gazette. A statement of the output issued by Warden Wulfer under date of August 8th, which includes the work of the season of 1905 shows that the output of the several grades amounted to 11,171,500 pounds, or over three million pounds more than last year. The sales amounted to \$1,079,036.84. Of the whole amount 8,689,910 pounds were sold in club orders to farmers of the state on time notes due Nov. 1 in the sum of \$843,037.72. The cash sales amounted to 2,481,580 pounds and the cash received therefor amounted to \$235,999.12.

SPEAKING of advertising, an exchange asks how many patent medicines its readers suppose would be sold during the next five years if the makers of it and the dealers would stop their advertising. If advertising will sell patent medicine it will sell other things, and the only way to sell goods is to let the public know you have the goods to sell. It is the steady drop of rain that wears the rock away and it is the steady, judicious advertiser that gets the trade. Keeping everlastingly at it is what does the business. It pays the merchant who is crying dull times to try it and THE DISPATCH offers you the opportunity of getting your store news before the people of Brainerd every evening where the announcements can be read and the merits discussed by the entire family which will invariably bring results. Newspaper advertising does the business where all other methods fail.

Mrs. Georgia A. Pelton arrived this morning from Monterey, California, for a visit with her daughter, Mrs. Coquillette, and her brother, W. H. Mantor. Mrs. Pelton formerly lived in Brainerd and has many friends in the city.

G. A. McLaughlin has become sole owner of the steamer Reunika on Mille Lac lake. Mr. Nachbar having traded his interest in the same to Mr. McLaughlin for the latter's shares of stock in the creamery, says the Aitkin Age.

Mrs. Mary E. Palmer, of this city, was among the passengers on the incoming passenger which was wrecked a few days ago. When she got home she did not feel any bad effects from the jar, but this morning there was a feeling of internal soreness and it is feared she has been quite badly injured.

There is a noticeable improvement in the appearance of the streets of the city of late. Street Commissioner Weitzel has been busy with a crew of men cleaning up and the improvement in the business district is especially noticeable. Fourth street has also been gone over as well as other streets in the resident portion of the city and much good has been done.

James P. Boyle has returned from Indiana where he attended the Valparaiso University. Mr. Boyle graduated from the law department of this university this year and is home but for a short time now before he goes to Indianapolis where he will practice law. He is interested with an old experienced lawyer and has been given a good opening. Mr. Boyle was one of the leading members of his class and starts out on what is thought to be a very promising career. Mr. Boyle has many friends in this city who will be glad to hear of his success in the new field.

## CREATE A CATTLE MARKET

Committee on City, Schools and County of Commercial Club Met Last Night

### CORRESPOND WITH OTHER CITIES

That have Established a Market Day to Ascertain Something of Plan Pursued

A meeting of the committee on city, schools and county was held last night to consider the matter of a market day for Brainerd, a question which was discussed at length at the last meeting of the Commercial Club.

The committee last night discussed the matter from its different standpoints and finally decided that it would be best before taking any further action to correspond with cities where such a day had been established and find out something of the plan and gain such information that would prove valuable.

It was deemed advisable to create a sort of cattle market here and advertise the same so that buyers everywhere could be present. It is deemed advisable to make it a 'competitive market and information touching on this point will be secured from other cities having market days in the northwest.

### DEERWOOD.

Cuyler Adams has a nice little launch on Kena lake.

Ovig & Carlson are having their land office plastered.

D. Hogan has purchased the blacksmith shop from H. J. Hage.

L. Brown, of Duluth, is in town looking over his mining interests.

Wm. Vreland had the misfortune to cut his foot with an ax, which laid him up for several days.

Mrs. Griffin, of Little Falls, has been visiting her parents, Mr. and Mrs. McCarroll, the past week.

We hear the whistle at the planing mill pretty regular again, and C. O. Rudolph is still at the old stand.

A gentleman from Brainerd placed his gasoline launch on Serpent lake. There are now six launches on that lake.

We understand that Wm. Rock has been offered \$2,000 for a twenty-fourth interest in what is known as the Ehrick property at Rabbit Lake.

N. P. Emil Carlson has built a nice little barn and sided and painted his cottage on the Creamers property, which is a great improvement to the place.

G. W. Rudolph has sold his house and lot to his son Marion and is making preparations to build himself a cottage on the adjoining lot.

### POINTED PARAGRAPHS.

Be a gentleman, and some people will not appreciate you.

Defeat is often a good thing, as it shows a man how little he amounts to.

If you want to enjoy the society of people never become intimate with them.

Rich men are hated and this is the reason: We poor people are in the majority.

The house is too noisy for comfort with a child in it and too lonesome for comfort when the child leaves. And there you are.

Every house owner should ask himself this question tomorrow, "Is my house a nuisance in the neighborhood?" Look yourself over.

As a man gets older he finds that the path from the cradle to the grave is not near so long as it was from soup to dessert when he was a child.—Atchison Globe.

### Names of Birds.

Certain birds get their names from St. Peter. According to a writer, "the petrel (in German Petersvogel, Peter's bird), a bird that skims the waves, is named after the apostle who walked upon the waves of Galilee. But the parrot is a less simple case. In Spain and in Portugal, as in France, the word corresponding to 'parrot' almost certainly represents 'little Peter,' a familiar name playfully applied because Peter was so common a Christian name. Similarly a house sparrow is nicknamed 'pirot' in France."

### Speed Rates.

Few men could tell, if they were asked, how many feet per second they walk. The average man walks four feet a second. A dog, on its ordinary jog, goes eight feet a second. A horse trots twelve feet a second. A reindeer over the ice makes twenty-six feet. A race horse makes forty-three feet. A sailing ship makes fourteen feet.—Philadelphia Bulletin.

### KNOWS ABOUT THE CRIME.

One Suspect Willing to Tell of It if Granted Immunity.

Detroit, Aug. 10.—Harry Johnson, held with Harry Parker by the police on suspicion of murdering Pawabroker Joseph Moyer in this city July 28, late Wednesday afternoon sent word to Captain McDonnell of the detective department that he wanted to make a confession. After an assistant prosecuting attorney and a stenographer had been secured the party of officials went to Johnson's cell to take his confession.

"I know all about the murder and will make a detailed statement if you will promise me immunity," he said, according to the officers.

Assistant Prosecutor Wurzer replied that it was impossible under the law to make such a promise and as Johnson did not then evidence a desire to continue his statement the officers left him. His admission that he knows all about the crime is looked upon by the police as a practical confession.

### PARLIAMENT AT AN END.

Closing Days of the Session Especially Interesting.

London, Aug. 10.—The British parliament will wind up its business during the afternoon and will be prolonged at 10 a. m. Friday, after a session chiefly marked by the uncertainty of the government's position. The closing days of parliament were especially interesting because it was known that the opposition, urged on by John Redmond, the Irish leader, had carefully planned to bring off another defeat at the psychological moment in order to secure Premier Balfour's resignation. This organized effort, however, has been defeated by the activity of the government's whips.

### Mashed to Death in Machinery.

### OPERATORS ALSO OPTIMISTIC

Traveling Freight Agent George R. Merritt States that Five Big Trains Went Through

The operators strike on the Northern Pacific so far as local conditions are concerned remains about the same. Supt. Blanchard, of the Superior division, passed over the line from Duluth to Staples and he stated that all the men that went out along the line are being replaced by new men. George R. Merritt, traveling freight agent for the Northern Pacific, was at Staples with Mr. Blanchard and went over the division also. He stated that up to noon yesterday five big freight trains passed over the N. P. going west and several freight trains went over the Superior division. Mr. Merritt stated that the freight conditions, he thought, had improved slightly within the past few days.

So far as the passenger service is concerned there is but little change. Nearly all the trains are running on time as affecting Brainerd.

On the other hand the operators are optimistic. At Staples there is but very little doing and it a very important point too. Some five or six operators were at work there and while the company has put several men at work they have been unable to retain them and at times the office has been entirely without operators. The operators claim that the same condition exists along the line.

### According to Scripture.

A certain tailor of very strict principles was in the habit of excusing the faults of his assistants only in they could justify themselves by Scripture. One day a woman entered his shop and asked to see some material, but refused to buy it because it was too cheap. After showing her some other goods, the assistant brought back the same material, this time asking a higher price, whereupon the customer bought it. Afterward, the proprietor, who had witnessed the transaction, reproved his assistant severely. The latter, remembering the rules of the establishment, replied: "Oh, it's according to Scripture all right. She was a stranger and I took her in."—Harpers Weekly.

## TO SHOOT AT SEA GERT

Preliminary Shooting at Lake City for Place on Team to Represent this State Now Going On

Each year there is considerable interest in the shooting at Lake City in which the members of the state guard participate, but this year the interest is keener than ever, as the preliminary work will determine who are the best shots in the state and they will be given places on the state team. This team will go to Sea Gert, N. J., on August 21 to participate in the national event in which all the states of the Union will be represented, as well as the other military and some naval bodies in this country. The Minnesota state team will consist of 12 men and the state is also entitled to two alternates.

Frank, Francis and Fred Britton are the only members of the national guard of this state living in Brainerd and they will in all probability be on the team to go to Sea Gert. They are at Lake City now and there is little doubt but that they will make their usual high scores on the ranges.

## RECALLS A MOST ATROCIOUS CRIME

Death of Mrs. Nellie Frayer at the  
Stillwater Penitentiary Oc-  
curred Tuesday

A SELF CONFESSED MURDERESS  
The Details of the Case Eclipse  
All Records in Criminal  
Annals

Mrs. Nellie Frayer, sent to the penitentiary from Crow Wing county for life in March 1897, for the murder of a nine-year son of one David Maxwell at Daggett Brook, died on Tuesday morning at the prison, and the curtain is drawn on one of the most sensational and atrocious cases in the annals of crime in Minnesota.

The mere mention of the name of this woman brings to the minds of those who lived in Brainerd at that time memories of the most inhuman act ever perpetrated by a living being.

On March 4, 1897, the grand jury returned indictments against Mrs. Nellie Frayer and her father, Erastus E. Glass, of Daggett Brook, charging them with murder in the first degree. The warrants were issued for their arrest and Deputy Sheriff Mike Cullen went down and got them and they were placed in the county jail that evening.

Hardly had Mrs. Frayer been in jail before she was ready to plead. On Saturday, March 6, 1897, she was brought into court before Judge Holland and confessed her guilt and was allowed to plead guilty of murder in the second degree. She was sentenced to hard labor at Stillwater for the term of her natural life.

The woman confessed everyone of the horrible details of the crime and completely exonerated her father who was jointly accused of the murder with her. She however, accused David Maxwell, the father of the boy, of planning the terrible details, but this had little weight with the officials who believed that Maxwell was the victim of this woman's cunning. Maxwell had lived with the woman for about a year.

The crime for which this woman was held and its details will bear a perusal at this time. Mrs. Frayer, her father and two small daughters lived with Maxwell on his claim at Daggett Brook, Mrs. Frayer having kept house for him, his wife having died about two years previous. Mr. Maxwell had one son, a bright nine-year old named Willis. According to the neighbors Mrs. Frayer treated this boy shamefully, cruelly punishing him for the slightest fault and abusing him in every way possible. On Saturday, April 20, while Maxwell was at work as a sawyer in the Joel Smith mill not far from the Maxwell home, the barn, only a few rods from the house burned to the ground and Willis, son of Mr. Maxwell, who was in the barn burned also. The story told by Mrs. Frayer at first was that the boy set fire to the barn and was caught inside and burned. The story of the fire and the death of the boy did not satisfy some of the neighbors and they immediately started an investigation and after an examination of the ruins found a part of the charred remains of the lad among embers and later they found other portions of the body buried in a manure pile.

Deputy Sheriff Cullen was notified and an investigation followed with the result that Mrs. Frayer and her father were arrested.

The woman plead guilty as stated above and in her statement to County Attorney Fleming she said she took the boy to the barn and after confining him in the hay loft set the barn afire. She said the boy begged piteously for help but she turned a deaf ear to his cries and left him to his cruel fate. On Sat-

urday afternoon March 6, after the woman had been sentenced, she made another statement implicating David Maxwell. She said that Maxwell planned the murder on Friday night; that he was to kill the boy first with an axe and then burn him in the barn after he had gone to his work. The woman said that she never saw the boy after the murder which she said was executed as planned by the boy's own father.

A few weeks after the woman was committed to the penitentiary at Stillwater a baby boy was born to her. The child is now eight years of age and is living with three sisters of the woman in California. Mrs. Frayer was forty-four years of age. She contracted quick consumption a short time ago and this was the cause of death.

## PARASITE IS KILLING FISH

Reports that a Large Number of  
Fish Are Dying in Northern  
Minnesota

### REPORT TO EXECUTIVE AGENT

By Deputy Game Warden Saun-  
ders Reveals Some Interest-  
ing Facts

Walleyed pike and whitefish are dying by millions in some of the northern Minnesota lakes, according to information received by Executive Agent Fullerton of the state game and fish commission, today says a twin city dispatch.

The fish are dying from the effects of a parasite which eats the gills. Residents of Crow Wing county have written Mr. Fullerton that millions of small walleyed pike and thousands of large whitefish have been washed on the shores of Gull and Round lakes, dead from the effects of the parasite. A box containing several of the dead fish was received by Mr. Fullerton from J. P. Saunders, a game warden sent out to investigate the reports.

"We have had some experience with this parasite before, but never have the results been so disastrous as they appear to be in the northern part of the state," said Mr. Fullerton. "It is needless to say that the commission will do everything in its power to stamp out the disease."

"The parasite has found its way to the St. Paul hatchery on former occasions, but we have always managed to kill it by a mixture of vinegar and water into which the fry is drenched for a short time. The solution kills the parasite and does not harm the fish."

"Of course, it is impracticable to stamp out the parasite in a large lake by a solution of this kind, but we have found a chemical compound which we believe will do some good. It is a salt compound costing about forty cents a pound and will be put into the lakes in large quantities."

### MUSIC AND DRAMA.

#### "ON THE BRIDGE AT MIDNIGHT"

Persons, who besides enjoying a good play are interested in a stage achievement that took many men many months to build, will be sure to see Klimt & Gazzolo's "On the Bridge at Midnight," which is coming to the Brainerd opera house on Tuesday, Aug. 15. They will find the reproduction of the jackknife style of draw bridge equal to the expectation aroused by its fame and they will be delighted with the bright comedy and romance of W. L. Roberts well known drama. The author and producers were determined that "On the Bridge at Midnight" should not offer the usual cheap sensational effects but on the contrary should be a play of merit not by any means wholly dependent on its most remarkable climax for success.

#### "UNCLE JOSH PERKINS"

In presenting the comedy drama "Uncle Josh Perkins" to the public, it is unnecessary to make an elaborate introduction, free from offensive horse play and vulgarity, masquerading as wit, yet full of wholesome fun and delicate touches of pathos, the whole pointing a healthy moral that makes one feel the better for having seen it. "Uncle Josh Perkins" is a play of pastoral interest introducing several distinct types of character interpreted by a good company. The engagement in this city is for one night only, Wednesday, Aug. 16.

### HERBERT WOOD IS PRESIDENT

Joseph Keibler Will Be Manager and Prof. Wm. Graham Will Lead the Band

The members of the Brainerd Elk band met last night to discuss matters pertaining to the organization and to map out some future policy. The band is given a new impetus by the organization which was perfected last night and it is believed that it will continue to be a factor in musical circles of the city in the future as it has been in the past.

The officers elected last night to direct the affairs of the band were:

President—Herbert Wood.  
Secretary—W. W. Latta.  
Treasurer—Ole Peterson.  
Manager—Joseph Keibler.

Prof. William Graham will be leader of the band and it is planned to make the organization one of the strongest of the kind in the northwest.

Marriage of a Well Known Young Gentleman of this City to Miss C. S. DeJunker, of St. Paul

The marriage of Mr. J. C. Georgeson, of this city, and Miss C. S. DeJunker, of St. Paul, is announced. The wedding occurred at the bride's home in St. Paul on August 2, the Rev. D. D. Mitchell officiating. Mr. R. L. Georgeson, formerly of this city and a brother of the groom, officiated as best man and Miss N. M. Vader was maid of honor. The bride was handsomely gowned in a dress of white muslin, trimmed with point lace and carried a beautiful bouquet of brides' roses. There were about one hundred guests presents.

Mr. and Mrs. Georgeson have arrived in Brainerd and will make their home here. Mr. Georgeson is a popular employee of the Northern Pacific shops here.

### FISHES THAT ARE RACERS.

The Tarpon, Shark and Mackerel are the Speed Champions.

Study of the speed of fishes is embarrassed by unfavorable difficulties. It is not possible, as with birds, to set up tall poles at intervals of a quarter of a mile and, with the help of stop watches, time them as they go by. Nevertheless investigation of the subject goes to show that the mackerel, if not the champion racer of the bring deep, comes pretty near to carrying off the honors. Unquestionably it travels sometimes as fast as an express train at high speed—say, at the rate of sixty or possibly seventy miles an hour.

Other things being equal, the larger the fish the faster it swims, just as the huge steamship is able to travel at a speed much greater than the little harbor tug. Undoubtedly the energy employed by a fish of great size, such as a thirty foot shark when traveling at its best gait, is something tremendous. An ordinary tug, which represents a maximum of energy in a minimum of bulk, utilizes about 200 horsepower. Of course it is only a guess, but it would not seem to be over the mark to suppose that a seventy foot whale makes use of 500 horsepower when it propels its huge bulk through the water at a rate of thirty miles an hour.

A whale, which is a mammal and not a fish, might be compared to a freight train if the shark is a cannon ball express, but it can beat the fastest ocean greyhound in a speed contest.

If there is a fish that can travel faster than a shark it must be the tarpon, which can probably "hit her up" to the tune of eighty miles an hour, if pressed for time. Generally speaking, it may be said that any creatures which live near the surface of the sea are swift swimmers, as compared with those that dwell in the depths. Thus the cod, which is a deep water species, is sluggish and would stand no show at all in a race with the mackerel or herring. These latter, which are distinctly pelagic, depend for their living upon their activity in pursuing their own enemies.

If the mackerel were as big as a good sized shark it would probably be the speed champion of the ocean. No fish is better shaped for rapid going. Some years ago a yacht builder in New York constructed a sloop with a hull patterned exactly after the underbody of a Spanish mackerel. She was called the Undine, and, if tradition does not lie, she never was beaten. Like the fish after which she was modeled, she had her greatest breadth of beam forward of amidships—a decidedly novel idea in boat building. One may say, indeed, that all modern water craft are more or less fishlike in their make-up; yet, on the whole, it is surprising that marine architects have not striven more earnestly than they have done to obtain hints from nature's own illustrations of aquatic speed making principles.—Saturday Evening Post.

### Cruiser Variag Floated.

Tokio, Aug. 10.—The Imperial navy department has announced the successful floating of the cruiser Variag Tuesday. The Russian cruisers Variag and Korietz were sunk by the Japanese in the harbor of Chemulpo on February 9, 1904.

## WOULD END TROUBLE

### GOVERNOR JOHNSON OF MINN. SOTA DESIRES TO SETTLE OPERATORS' STRIKE.

### OFFERS TO ACT AS MEDIATOR

JAMES J. HILL DISCLOSES HE WILL NOT INTERVENE IN BEHALF OF THE STRIKERS.

St. Paul, Aug. 10.—The first definite move to end the strike of the telegraphers of the Northern Pacific and Great Northern railroads was made Wednesday by Governor John A. Johnson of Minnesota. The governor sent letters to Presidents Hill and Elliott of the railroads and President Perham of the Order of Railway Telegraphers inviting them to submit the issues to arbitration and offering his services as mediator.

As both Presidents Hill and Elliott are in the East, the governor does not expect to hear from them for a few days. President Perham declined to discuss the governor's invitation, but had previously stated that the telegraphers were willing to submit their case to arbitration before any competent and unbiased body.

Governor Johnson's action was taken at the request of commercial bodies throughout the state, who alleged that in some sections business was paralyzed as a result of the strike.

The railroad officials here claim that the strike is practically a thing of the past and that traffic conditions on both roads are rapidly becoming normal.

The strikers' officials, however, profess to be confident of success, claiming that the men remain loyal to the union and that strikebreakers are being weaned away from their positions almost as fast as they are installed.

### HILL SETS REPORTS AT REST.

Will Not Intervene in Behalf of the Strikers.

New York, Aug. 10.—James J. Hill set at rest Wednesday the reports said to have been spread among the striking telegraphers of the Great Northern and the Northern Pacific roads that he would intervene in their behalf in the contention with the operating officers of the roads. Mr. Hill said in regard to the case of the strikers that the men had been dismissed because they would not obey orders.

"Men," continued Mr. Hill, "who will plot to embroil a railroad and its employees just at the beginning of a season when they know a heavy movement of traffic is expected, as at present, with the approach of crop moving, do not deserve to be on the payrolls of any road. Their are positions of trust and plotters are not fit to hold them. I will see to it that any of those who have been active in bringing about this strike will never enter the employ of the road."

### TWO PERSONS BADLY BURNED.

#### Minneapolis Woman Caused Explosion While Looking for a Gas Leak.

Minneapolis, Aug. 10.—Ed Lyons, seventeen years of age, and Mrs. Ida Bloomberg were both painfully injured Wednesday in a gas explosion in the basement of the apartment house where they both live, at 1020 Eighth street south. The force of the explosion caused considerable damage in the lower part of the house, and a fire ensued which resulted in loss to Mrs. Bloomberg and occupants of some of the adjoining apartments.

Mrs. Bloomberg had been troubled for some time by escaping gas in her portion of the house, and undertook to locate the leak. Standing on a box, she applied a lighted match to one of the pipes, and immediately she was enveloped in flame and there was an explosion that shook the entire building.

The woman screamed, and when young Lyons answered her call he found her hair and her clothing all ablaze. With his coat he managed to extinguish the flames that enveloped Mrs. Bloomberg, but in doing so he was badly burned about the face and hands.

### BLACKLEG IN MASSACHUSETTS.

#### Dreaded Cattle Plague Appears on a Farm Near Brookfield.

Brookfield, Mass., Aug. 10.—The dread cattle plague, known as blackleg, a form of murrain, has broken out in Brookfield at the farm of John A. Terry, and as a result Mr. Terry has lost three young cows. Agent Peters of the Massachusetts cattle bureau has been notified and has ordered that the bodies of the dead animals be cremated or buried deep and covered with lime.

An agent of the cattle bureau has been ordered to Brookfield to inoculate all the cows in Mr. Terry's herd.

### Fatal Quarrel Over Hay.

Angus, Minn., Aug. 10.—With a bullet wound in his chest, F. McLennan, one of the wealthiest farmers of this vicinity, lies dying at Crookston, while the sheriff and his deputies are scouring the country for Frank Tans, McLennan's neighbor, who is accused of having fired the shot. The shooting came as the climax of a quarrel over a load of hay.

## PANAMA CANAL PLANS

### Thomas Cook Tells of Conditions For Zone Workers.

### HOSPITAL SERVICE INCREASED

#### Collector of Revenues in Canal Zone Says There Is Very Little Yellow Fever—Water System to Be Established, Streets Paved, Swamps Drained and Modern Houses to Be Built For Employees.

Thomas Cook, collector of revenues in the Panama canal zone, recently arrived in the United States for a visit of eight weeks. His mission is to buy supplies and to talk over plans with the Washington officials. He has under his charge the posts, lands, customs, schools, internal revenues and the administration of properties left by citizens who die in the canal zone. In an interview with a New York Tribune reporter he told of the health in the canal zone and explained the work which Governor Charles E. Magoon and the Panama commission are now beginning. He said:

Contrary to the general conviction in the States, there is very little yellow fever in Panama. Of course there always have been some cases, and other cases will appear from time to time for years. In the last year there were only 162 cases of this disease and fifty-three deaths in the cities of Panama, Colon and the entire canal zone among both natives and citizens of the United States.

Governor Magoon has increased the hospital service in the canal zone so that accommodations can be had by 5 per cent of the 12,000 persons who are expected to arrive in Panama by June 30, 1906. This is considered by medical experts to be the maximum requirement. He has added about 200 men to the 1,000 who were dredging the swamps in the hope of exterminating the germ carrying mosquitoes and 200 to those who are digging the sewers and building the water systems.

As part of the Fourth of July celebration the water was turned on in the city of Panama. The waterworks are a present from the government of the United States. Twelve lines of hose were attached to a six inch main and water was thrown over a house of four stories. The first shipment of brick for paving the streets recently arrived. It is the intention of the government to clean up the cities and put them in a modern sanitary condition.

Within a year water systems will be established, streets will be paved, swamps will be drained and modern houses built pretty generally through the canal zone, but especially in Panama and Colon. Already 125 cart loads of lumber have been delivered along the route of the canal for houses, and 10,000,000 feet of lumber is on the way from the United States. The houses that are to be built for the government employees are to be provided with all conveniences—water, baths, screens, etc. Eating houses, where properly cooked and prepared meals may be had, are also to be erected. There will be homes for married and single men.

There are the greatest opportunities for men of all professions. Where men know their work and are temperate and willing to put up with the necessary hardships the pay is at least 50 per cent higher than in the United States and the opportunities for advancement unlimited. For doctors especially there are great openings. We already have eight or nine hospitals completed and equipped, and others will be built as the necessity arises.

We are to have mail service along the canal route. I am here now to purchase school supplies for forty-two schoolhouses. There are 1,068 children of school age in the territory, and many more are coming. The capacity of the schools will be forty pupils each. There will be 25,000 American citizens in the territory eventually, and we intend to provide proper educational facilities for all their children.

We want teachers and men to take hold of the school system. I consider the pay we offer good. We give clerks \$1,500 a year and homes to live in. Where quarters are not provided 15 per cent of their salaries extra is allowed for paying their board bills. This is true of all classes of employees. Bookkeepers receive from \$1,600 to \$2,000; stenographers from \$1,600 to \$1,800; chief of division, \$2,000 to \$2,500; engineers, \$5,000 to \$9,000, and department heads, \$5,000.

One of the great incentives to work given the employees of the government in responsible positions is the freedom they have in their spheres of activity. The governor called his heads of departments together after he had appointed them and told them that they could have full sway in their particular fields. He would give them full credit for all they did and would require them to bear the responsibility of the failures. As a result all have joined hands to make the general work a success.

I hope that I am not painting too rosy a picture of life in Panama. I do not want to delude any young man who hopes for an easy berth. We want only men with the spirit of the pioneer. In the canal zone there are only work and home. There are no amusements except the music on Sundays in the parks. The weather is hot and humid in the day, there are few tropical fruits, meals are poorly cooked and poorly served; there are no New York hotels, no Riverside drives, no Sunday picnics. The unopen country, threaded here and there with great trails, lies all about us. In short, we do not talk of anything, dream of anything or do anything but dig the canal.
